WORK EXPERIENCES

POWER SAVE ENGNEERING (PSE), ISLAMABAD
June 2024-August 2024

I commenced my internship at this location, where I gained knowledge about Base Stations and acquired practical experience in the telecommunications industry. Subsequently, I assumed the role of team leader towards the end of my tenure. Throughout my time here, I familiarized myself with Huawei's equipment and gained hands-on experience with them. Additionally, I developed skills in linking sites, configuring WebLCT, and performing EHS, QC, and task completion on ISDP."

ABN NEWS, ISLAMABAD
June 2023- September 2023

Initially, I acquired significant knowledge in the Programming Control Room (PCR). Subsequently, I was transferred to the Master Control Room (MCR), where I further expanded my skills and expertise. Later, I was assigned to work under the guidance of the Audio Manager, from whom I gained valuable insights into audio production and sound design. Throughout my tenure in this organization, I developed a comprehensive understanding of studio operations and management.

YUM'S GROUP, HASSAN ABDAL
June 2022-September 2022

As a Network Engineer, my role involved overseeing the fingerprint attendance system for employees across the head office and 9 branch locations. Additionally, I was responsible for monitoring store operations, managing input and output processes, generating monthly payroll for all staff members, based on their digital attendance records.

AGK MIKAIL's DOLLAR MALL, MULTAN
Dec 2021- April 2022

Preparation and designing of product's working demos by using different tools. Documentation, Graphic Designing for Pena flexes social media Posting, keeping records of sales and purchases by using excel sheets
